

Dear Clients and Users:

Next we allow you to make you aware of the characteristics, policies and procedures for the acquisition, purchase / sale and use of the validation coupons or discount for the payment of stay in the parking lot:

Coupons are the mechanism by which a full or partial amount is validated or discounted against the total cost of the stay for parking use.

For coverage of the discount or validation we generate two types of coupons;

- 1 Hour Coupons.
- 4 Hour coupons.

The 1-hour coupon is intended to cover the need of those users whose estimated time of stay is equal to or less than 1 hour. Being possible to use at most (only in this modality), up to 4 coupons per ticket, that is to say, validate maximum 4 hours. This coupon has a unit price of \$ 32.00 and is equivalent to the cost of 1 hour of parking under the authorized rate.

The coupon of 4 hours is aimed at users with consumption of stay time of more than 4 hours and less than 12 hours. In this case only 1 coupon per ticket The unit price is \$ 128.00.

Exceeded the maximum validation time of each coupon will be charged the additional consumption of time for fractions of 15 minutes under the current authorized tariff.

Coupons do not apply in the Valet Parking service.

Coupons have an expiration of 1 (one) year from their date of issue. In case, if they have not been used arriving at the end of their validity, they may be exchanged for new ones for the same term and at no cost, provided that the authorized base rate has not undergone modification or change. If an increase has been presented, the corresponding differential must be paid to process the replacement.

If an increase has been presented, the corresponding differential must be paid to the replacement process.

It is recommended to be careful with the coupons and keep them in good condition, as it contains the information of discounts and beams on the printed magnetic stripe and this may no longer be recognized

The price of the coupons is subject to the authorized base rate of the parking lot and therefore any modification to this will affect the price of the coupons. Currently we have the following table of discounts in rate by volume of coupons;
